DMQ.17 - We also need (your/SP’s) Social Security Number. The City University of New York School of Public Health and the New York City Department of Health and Mental Hygiene may use (your/his/her) Social Security Number to conduct health-related research in the future by linking (your/his/her) survey data with key health registries such as cancer registries or the National Death Index. Except for this purpose, we will not release (your/his/her) SSN to anyone, including any government agency. Providing this information is voluntary. There will be no effect on (your/his/her) benefits if you do not provide it.

What is (your/SP’s) Social Security Number?

INTERVIEWER INSTRUCTION: IF RESPONDENT CANNOT RECALL FROM MEMORY ASK (HIM/HER) TO GET CARD AT THIS TIME.

CAPI INSTRUCTION: IF SP REFUSES (CODE 7), DISPLAY THE FOLLOWING SOFT ERROR MESSAGE:
I understand your concern. I do not have access to this information after I type it. Once I complete the interview all the information is sent to a secure facility and stored in an encrypted file on a protected network, separate from all other survey information. The only type of research we are allowed to conduct using this information is health-related, such as the examples I gave you.

HELP TEXT - IF R IS RELUCTANT TO GIVE NUMBER OR IF R ASKS IF THEY MUST GIVE NUMBER –
It is extremely useful to have this information to be able to link to health records such as death certificates and Medicare records in the future. Many years in the future the information you give me can be used to see how health habits and diet at one point in your life influence how healthy you are in the future.

HELP SCREEN FOR HIQ.2 AND HIQ.3:

Health Insurance: Health benefits coverage which provides persons with health-related benefits. Coverage may include the following; hospitalization, major medical, surgical, prescriptions, dental, and vision.

Private Health Insurance Plan: Any type of health insurance, including HMOs, that is not a public program. Private health insurance plans may be provided in part or full by a person's employer or union, or may be purchased directly by an individual.

Private Health Insurance Plan through a State or Local Government Program or Community Program: A type of
health insurance for which state or local government or community effort pays for part or all of the cost of a private insurance plan, such as Blue Cross/Blue Shield. The individual may also contribute to the cost of the health insurance and may receive a card such as a Blue Cross/Blue Shield card. A community program or effort may include a variety of mechanisms to achieve health insurance for persons who would otherwise be uninsured. An example would be a private company giving a grant to an HMO to pay for health insurance coverage.

Medicare: A Federal health insurance program for people 65 or older and for certain persons under 65 with long-term disabilities. Almost all Social Security recipients are covered by Medicare. It is run by the Center for Medicare and Medicaid Services of the U.S., Department of Health and Human Services. Medicare consists of two parts, A and B:

Part A is called the Hospital Insurance Program. It helps pay for inpatient care in a hospital or in a skilled nursing facility, for home health care, and for hospice care. It is available to nearly everyone 65 or older. Persons who are eligible for either Social Security or Railroad Retirement benefits are not required to pay a monthly premium for Part A of Medicare. However, anyone who is 65 or over and does not qualify for Social Security or Railroad Retirement benefits may pay premiums directly to Social Security to obtain Part A coverage.

Part B is called the Supplementary Medical Insurance Program. It is a voluntary plan that builds upon the hospital insurance protection provided by the basic plan. It helps pay for the doctor and surgeon services, outpatient hospital services, durable medical equipment, and a number of other medical services and supplies that are not already covered under Part A of Medicare.

If a person elects this additional insurance, the monthly premium is deducted from his/her Social Security. Medi-Gap: Refers to private health insurance purchased to supplement Medicare. Medi-Gap will be treated as a private health insurance plan in the detailed questions about health insurance.

Medicaid: Refers to a medical assistance program that provides health care coverage to low-income and disabled persons. The Medicaid program is a joint federal-state program which is administered by the states.

CHIP (Children's Health Insurance Program, also called SCHIP): A joint federal and state program, administered by each state, that offers health care coverage to low-income, uninsured children. This law was passed in 1997. In some states, CHIP programs have distinct names.

Military Health Care/VA: Refers to health care available to active duty personnel and their dependents, in addition, the VA provides medical assistance to veterans of the Armed Forces, particularly those with service-connected ailments.

CHAMPUS/TRICARE/CHAMP-VA: CHAMPUS (Comprehensive Health and Medical Plan for the Uniformed Services) provides health care in private facilities for dependents of military personnel on active duty or retired for reasons other than disability. TRICARE is the "managed care" version of CHAMPUS. CHAMP-VA (Comprehensive Health and Medical Plan of the Veterans Administration) provides health care for the spouse, dependents, or survivors of a veteran who has a total, permanent service-connected disability.

Indian Health Service: The federal health care program for Native Americans.

State-Sponsored Health Plan: Any other health care coverage run by a specific state, including public assistance programs other than "Medicaid" that pay for health care.

Other Government Program: A catch-all category for any public program providing health care coverage other than those programs in specific categories.

Single Service Plan (SSP): Health insurance coverage paid for by an individual that provides for only one type of service or treatment for a specific condition. These plans are usually bought to supplement a more comprehensive health insurance plan. Examples of SSPs are dental care, vision care, prescriptions, nursing home care, hospice care, accidents, catastrophic care, cancer treatment, AIDS care, and/or hospitalization.
HUQ.INTRO - The next questions are about where {you go/SP goes} to get health care and about prescription medications {you/SP} take. We want to collect information about the health care you get in order to improve the quality of care that people receive when they visit the doctor.

[READ IF INTERVIEW IS CONDUCTED AT HOME]: Before we begin, could you collect any appointment cards, reminder slips, bills, receipts or other information about {your/SP’s} doctors’ practice, name and phone number, and could you collect the containers for all the prescription medicines that (you/SP) used or took in the past 30 days for both mental or emotional and physical conditions? These are products prescribed by a health professional such as a doctor, dentist or psychiatrist.

[READ IF INTERVIEW IS CONDUCTED AT CLINIC]: Could you take out any appointment cards, reminder slips, bills, receipts or other information about {your/SP’s} doctors’ practice, name and phone number, and could you take out the containers for all the prescription medicines that (you/SP) used or took in the past 30 days for both mental or emotional and physical conditions? These are products prescribed by a health professional such as a doctor, dentist or psychiatrist.

HELP SCREEN: Doctor: The term refers to both medical doctors (M.D.s) and osteopathic physicians (D.O.s). It includes general practitioners as well as specialists. It does not include persons who do not have an M.D. or D.O. degree, such as dentists, oral surgeons, chiropractors, podiatrists, Christian Science healers, opticians, optometrists, psychologists, etc.

Health Care Professionals (Health Professional): A person entitled by training and experience and possibly licensure to assist a doctor and who works with one or more medical doctors. Examples include: doctor’s assistants, nurse practitioners, nurses, lab technicians, technicians who administer shots (i.e., allergy shots), and who work with a doctor. Also include paramedics, medics, and physical therapists working with or in a doctor’s office. Do not include: dentists, oral surgeons, chiropractors, chiropodists, podiatrists, naturopaths, Christian Science healers, opticians, optometrists, and psychologists or social workers.

**HELP SCREENS FOR MCQ.9-11 a through m**

**MCQ.9a Arthritis:** Is a disease that causes pain, swelling or stiffness in joints, for example the hand, the knee, or neck. Common kinds of arthritis are osteoarthritis and rheumatoid arthritis.
MCQ.11a Osteoarthritis: Is the most common kind of arthritis older persons. It is also called degenerative joint disease. Most often, it affects the knees, the hips, the hands, the feet, and the spine. There is usually bony joint enlargement. There can be joint deformity or pain.

Rheumatoid Arthritis: Causes inflammation, redness and swelling of both hands and knees, but it can affect joints anywhere in the body. You may feel sick and tired, and sometimes there are fevers.

Psoriatic Arthritis: Is arthritis caused by the skin rash Psoriasis. Most often it causes redness and swelling of joints such as the spine, knees, hips and hands.

Arthritis: Is a disease that causes pain, swelling or stiffness in joints, for example the hand, the knee, or neck. Common kinds of arthritis are osteoarthritis and rheumatoid arthritis.

MCQ.9b Congestive Heart Failure: Heart failure is a condition where the heart cannot pump enough blood throughout the body. Blood and fluid "back up" into the lungs which causes shortness of breath. The heart failure causes a buildup of fluid in the feet, ankles, and legs.

INTERVIEWER: DO NOT COUNT HEART MURMURS, IRREGULAR HEART BEATS, CHEST PAIN OR HEART ATTACKS.

MCQ.9c Coronary Heart Disease: Is when the blood vessels that bring blood to the heart muscle become narrow and hardened due to plaque (plak). Plaque buildup is called atherosclerosis (ATH-er-o-skler-O-sis). Blocked blood vessels to the heart can cause chest pain or a heart attack.

MCQ.9d Angina (Angina Pectoris): (AN-ji-na or an-JI-na). Angina is chest pain or discomfort that occurs when the heart does not get enough blood.

MCQ.9e Heart Attack (Myocardial Infarction): A heart attack happens when there is narrowing of a blood vessel that supplies the heart. A blood clot can form and suddenly cut off the blood supply to the heart muscle. This damage causes crushing chest pain that may also be felt in the arms or neck. There can also be nausea, sweating, or shortness of breath.

MCQ.9f Stroke: Is when the blood supply to a part of the brain is suddenly cut off by a blood clot or a burst blood vessel in the brain. The part of the brain affected can no longer do its job. There can be numbness or weakness on one side of the body; trouble speaking or understanding speech; loss of eyesight; trouble with walking, dizziness, loss of balance or coordination; or severe headache.

MCQ.9g Emphysema: Is a disease where the tiny air sacs in the lungs become damaged so less air goes in and out. As a result, the body does not get the oxygen it needs. Emphysema makes it hard to catch your breath. It is often due to smoking.

MCQ.9h Chronic Bronchitis: Is a long lasting breathing problem where you constantly cough up phlegm. Often there is a daily cough with phlegm for several months at a time for two or more years and you are short of breath. It is often due to smoking.

MCQ.9i Osteoporosis causes bones to become weak and brittle, so brittle that a fall or even mild stresses like bending over or coughing can cause a fracture.

MCQ.9k Depression: Depressive disorders are not the normal ups and downs that everyone experiences. They are illnesses that affect mood, body, behavior, and mind. Depressive disorders interfere with individual and family functioning. The person with a depressive disorder is often unable to fulfill the responsibilities of spouse or parent, and may be unable to carry out usual job responsibilities.

MCQ.9l Anxiety happens as a normal part of life, but for some people, anxiety persistently interferes with daily activities such as work, school or sleep. This type of anxiety can disrupt relationships and enjoyment of life, and over time it can lead to health concerns and other problems.
MCQ.9m Post-traumatic stress disorder (PTSD) is a mental health condition that is triggered by a terrifying event. Symptoms may include flashbacks, nightmares and severe anxiety, as well as uncontrollable thoughts about the event.

INCOME - INQ

The next questions are about (your/SP’s) combined family income in the last 12 months. By family, I mean those related by blood, marriage or a marriage like relationship, adopted and foster children and others (you consider/SP considers) to be family. When answering these questions, please remember that by "combined family income", I mean (your/SP’s) income plus the income of all family members living in the household before taxes. This would include income sources that (you collect/SP collects) on behalf of children like SSI, WIC, etc.

HELP SCREEN: Income: Income is an important factor in the analysis of the health information we collect. Access to medical care depends in part on a person or family's financial resources. This information helps us learn if people in one income group use certain types of medical services more or less than people in other income groups. We may also learn if one income group has certain medical conditions more than other income groups.

Household: The entire group of persons who live in one dwelling unit. It may be several persons living together or one person living alone. It includes the household reference person and any of their relatives, as well as roomers, employees, and other non-related persons.

That was my last question. Thank you for your time and cooperation in completing this interview.

Sometimes the personal issues we’ve discussed cause people to become upset and in need of speaking with a counselor. If you would like to talk with someone about your feelings, we suggest you call your doctor, counselor, or other treatment provider if you are currently under someone’s care. If not, there is also a national lifeline number you can call where counselors are available to talk at any time of the day or night. The service is free and confidential. They can also give you information about (additional) mental health services in your area. Their toll-free number is 1-800-543-3638.

Thank you again for your time, and have a good (day/afternoon/evening).
## Exhibit A  Distressed Respondent Protocol

### STEPS

| A. IF SP IS AN IMMEDIATE DANGER TO HIM/HERSELF OR OTHERS, FOLLOW THE STUDY’S GENERAL DISTRESSED PROTOCOL AND CALL LIFENET OR 911 |
| B. COMPLETE INTERVIEW AND THEN READ TO SP: You told me earlier that you have recently had thoughts that you would be better off dead, or had thoughts of hurting yourself in some way. Do you have a doctor, counselor, or someone you can talk to about how you are feeling now? |
| IF YES: I strongly suggest that you contact this person so you can talk to him or her about how you have been feeling, especially about the thoughts you’ve been having about death and dying. Would you be willing to do that? |
| IF YES: Okay. There is also a national hotline you can call where counselors are available to talk at any time of the day or night. Their service is free and confidential. Their toll-free number is 1-800-543-3638 or 1-800-LIFENET. **THANK SP FOR THEIR PARTICIPATION IN THE STUDY AND END INTERVIEW.** |
| IF NO: I strongly suggest that you make use of some of the resources that are available. There is a national hotline at 1-800-543-3638 where counselors are available 24-hours a day to talk to you about how you are feeling. They may also help you locate (additional) mental health services in your area. There is also a peer support line at 646-741-HOPE, which is available from 4:00 pm to midnight. I can call either of these numbers for you and then give you the phone, or give you the number to call yourself. If you feel that this is an emergency now or later, you should go to a hospital emergency room right away. If you are not able to get to an emergency room immediately, you should call 911 for assistance. **THANK SP FOR THEIR PARTICIPATION IN THE STUDY AND END INTERVIEW.** |
| C. WHEN INTERVIEW IS COMPLETED, FILL OUT AN INCIDENT REPORT. CALL YOUR SUPERVISOR IF YOU HAVE QUESTIONS OR WOULD LIKE TO DEBRIEF. |
